

### TOWN OF CRESTED BUTTE BASE SIXTH STREET CORRIDOR PROJECT

CRESTED BUTTE, COLORADO (COMPLETED)

*Charlier Associates prepared a street corridor plan for Sixth Street, which is the extension of State Highway 135 into the town of Crested Butte. CAI's approach to this project was to draw the community into the design process and to utilize the advice and guidance we received in shaping our work. CAI planned, publicized, organized, hosted and facilitated three public workshops. CAI was responsible for evaluating and making recommendations concerning traffic circulation, pedestrian circulation, transit service and public space design. Charlier Associates provided the town with conceptual engineering plans for improvements for the length of Sixth Street.*

Client: Town of Crested Butte

Contact: Bob Gillie, Public Works Director, (970) 349-5338
