

# Charlier Associates, Inc.

## PROJECT EXPERIENCE

### RTA ACTION PLAN - ROARING FORK TRANSIT AUTHORITY

Aspen, Colorado (completed 1997)

Charlier Associates lead a national team of transit consultants on a project to develop a Rural Transportation Authority pursuant to new legislation adopted by the Colorado legislature in 1997.

This new RTA is the first of its kind in Colorado and replaced the existing RFTA bus transit agency. CAI provided technical analyses of alternative service plans, including planned rail systems, and recently prepared alternative funding plans and organizational designs. Charlier Associates also managed a comprehensive valley-wide public process.

CLIENT: Roaring Fork Transit Authority
