## PROJECT EXPERIENCE

### TOWN OF WINTER PARK MASTER PLAN

Winter Park, Colorado

Charlier Associates, Inc. acted as a subconsultant to Winston Associates on a strategic update to the Town of Winter Park's Master Plan. CAI reviewed existing regulatory documents to assess where multi-modal transportation shortfalls existed. CAI worked with a project advisory committee (elected officials, Town staff, and Intrawest Resort representatives) to develop a multi-modal transportation issues that addressed the needs of the Town and the Resort. Goals included capitalizing on the increased bus, rail and gondola service in the Town and the Fraser Valley. CAI made recommendations on future studies and helped shape the vision for future transportation policies. The critical issue in this project was preparing the Town for the redevelopment of the Winter Park Ski Area by Intrawest.
